PROFESSIONAL SUMMARY

Data Scientist and AI Engineer with hands-on experience in data analytics, AI, machine learning, Azure services, and Large Language Models (LLMs). Adept at developing data-driven solutions across various industries, with strong technical expertise in Python, MLOps, and cloud platforms.

EXPERIENCE

AI and LLM Integration Engineer — Tabsense AI-Mawdoo3 Mar 2025 – now

- Building multi-market AI agents using CrewAI and Django
- Developing a Text-to-SQL agent for automating natural language database queries
- Conducting continuous research on the latest advancements in AI and large language models (LLMs)

Azure AI support Engineer — Vendor (Estarta Solutions) at Microsoft Oct 2023 – June 2024

- Supported Azure AI products, including OpenAI on Azure, leveraging tools such as Kusto Query Language (KQL), Docker, Postman, and PowerShell
- Developed automation scripts to validate customer configurations and streamline support processes
- Communicated complex AI solutions clearly to customers and collaborated within a team of engineers to troubleshoot and resolve high-impact cases

Junior Data Scientist — Qalam AI -Mawdoo3 July 2023 - Sep 2023

- Conducted text preprocessing in Arabic and English, and implemented NLP techniques including sentiment analysis, NER, and REGEX-based pattern search
- Worked in Agile environments using Jira for task management and Git/GitHub for version control

Data Science Trainee — Estarta Solutions Mar 2023 – June 2023

- Conducted data cleaning and analysis for multiple demonstration projects using Power BI, ensuring accurate and reliable insights for decision-making
- Undertook SQL training, acquiring proficiency in performing diverse tasks such as data querying and manipulation

Estimation Engineer and Project Coordinator — Alaska Electromechanical Services June 2021 - June 2022

- Reviewed plans, specifications and Performed load calculations, designed duct systems and took off HVAC
- Estimated cost and defining profits margins of projects
- Communicated with customers to determine project scope and pricing information

EDUCATION

Data Science Academy by Orange Nov 2022 - Jan 2023

Bachelor's Degree In Mechanical Engineering Sept 2015 - Aug 2019
Hashemite University

SKILLS

Python · Machine Learning · LLM · AI agents · RAG · MLOPS · Postgresql · Azure Fundamentals · Azure AI Services · Big Data · PySpark · Deep Learning · AWS AI practitioner · Advanced Statistics · Natural Language Preprocessing · Crewai · Langchain · Pytorch · Fast API · Django · Linux · MLflow · Git · GitHub · CI/CD for ML · Docker · DVC · Microsoft Office
